Bill Introduced in the Senate Providing for His Removal.

Full Power Vested in a New Board of Reformatory Managers.

Eight Members to Be Chosen, One from Each Judicial District.

(Special to The Evening World.) formatory, is just beginning is evident by a bill introduced in the Senate to-day by Senator Persons, of Buffalo. If the bill becomes a law, Gov. Morton will be given the power to appoint immediately a new Board of Managers of the Elmira histitution, and that Board will be institution, and that Board will be clothed with the authority to remove Brickway without further ceremony.

The bill was among the first read by the cierk this morning, and created quite He Says He Will Set Heelers Against a sensation among the Senators, because seeks to accomplish that which the nd demanding for several years.

The bill is an amendment to Chapter

711, of the Laws of 1887, entitled "An act to revise, consolidate and amend the several acts relating to the New York State Reformatory at Elmira. As the Board of Managers of the Re-

ermatory is now constituted, there are ve members residing in Elmira and olding office for five years. The Persons bill provides that there shall be eight members, one from each Judicial District of the State, and that their terms of office shall be for four years

terms of office shall be for four years each.

The effect of this amendment will be to prevent the appointment of a clique of Brockway's friends in Elmira, as has always been the case in the past.

The knowledge that the Persons bill has been introduced will be a severe blow to Brockway and his supporters. For several weeks rumors have been current to the effect that no legislation in his case was necessary, as he was

this bill by people in every section of the State.

"I believe that by distributing the managers among the judicial districts there will be an end to the scandal which has grown out of the fact that the Elmira Reformatory has been run by a clique in that town."

From what Gov. Morton has said to persons who demanded the removal of Brockway there is little doubt that he will sign the bill if it passes.

Lieut. Gov. Saxton and Speaker Fish are both said to favor the bill.

There is a second bill relating to Brockway before the Legislature. It was introduced by Senator Parsons, two weeks ago. It seeks to abolish the in-

CHECK TO THE JUSTICE BILL. Platt Senators Preparing to Hold It in Committee.

ALBANY, March 26,-The Platt met in the Senate indulged in a laugh this morning over the precipitate haste with which the Assembly passed the Police Justice bill last night. From the expression of opinion in the

Senate, the bill will not go through that body so expeditiously as it did through the House, and it is extremely doubtful if it will pass at all. It will ALBANY, March 26.—That the war on certainly not be passed until the fight Paddler Brockway, of the Elmira Re-

# LAWSON IN REVOLT.

Mayor Strong.

(Special to The Evening World.)
ALBANY, March 28.—Reformer Jud-Up to a week ago he was the most enthusiastic admirer of the Mayor in the Legislature. He thought he could have almost anything he wanted in the way of patronage, and had a couple of candidates for the Dock Commissioner-

candidates for the Dock Commissionership.

The Mayor did not appoint Mr. Lawson's candidates, however, and the latter
is pretty sore. He said to-day:

"I am done with the Mayor. I'll turn
my heelers against him."

On the floor of the Assembly last night,
while a new dock bill was being considered, Reformer Lawson indulged in this
outburst of indignation:

"We've just got rid of a gang of Tammany Hall thieves and now we're going
to have a gang of Republican thieves."

Mr. Lawson was the original reform
legislator.

# A BILL AGAINST TIGHTS.

Senator Mullin's Measure Would

For several weeks rumors have been current to the effect that no legislation in his case was necessary, as he was soon to resign. It is generally believed, however, that such reports were started by Brockway's friends to prevent the Legislature from passing any bill that might accomplish his removal.

The bill which Senator Persons has introduced is, in fact, but a revision of the law which Brockway had enacted leveral years ago for his own protection, and to insure his retention in office.

Senator Mullin's Measure Would Make It a Misdemeanor.

ALBANY, March 28.—Senator Mullin introduced in the Senate to-day a bill prohibiting any woman from appearing in tights or in any indecent coatums at any place where male persons are assembled.

An offense is deemed a misdemeanor and is pusishable by imprisonment of not less than thirty days or more than one year for each offerse.

Any person who procures any female to so appear shall upon just conviction shall be sentenced to State prison for a term not less than three months nor more than one year, and upon each subsequent conviction shall be sentenced to State prison for a term not less than two years nor more than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or by a fine not less than five years, or or by a fine not less than five years, or by a fine not less than five years, or or by a fine not less than five years, or or by a fine not less than five years, or or by a fine not less than five years, or or by a fine not less than five years, or or by a fine not less than five years, or or by a fine not less than five years, or or by a fine n

tained.

No company, however, is to be required to use any specified patented device that shall cost more than \$50 a car. Violations of the law are to be considered misdemeanors and punished accordingly.

### TO PROBE GOFF'S COURT.

pointing a Committee. ALBANY, March M. - The Senate took up to-day the special order, the resolu-

up to-day the special order, the resolution for an investigation by the Judiciary Committee, of the affairs of Recorder Goff's coart.

Senator Canto said he had no objection to the passage of the resolution,
but the Grand Jury had already investigated the matter and had found that
most of the statements made concerning it were untrue.

Senator O'Connor said that a number
of Senators had suggested this method
of solving the difficulty, and it would
take but forty-eight hours.
Senator Lexow asked if the Judges
had protested against an investigation.
Senator Cantor replied that there were
no charges against them, and they had
nothing to fear. The Grand Jury had
dispelled the only charges ever made
against the court. He had not talked
with the Judges about it. No one said
there were charges against the court.
There was nothing to warrant the investigation, but he would not oppose it.
The rote was then taken, and the resolution was passed—If to 8.
The first session will be held on Friday.
Pending the inquiry, the Goff bill will
remain in Committee. It is generally
believed it will not pass.

# TENEMENT BILL ADVANCED.

Third Reading by the Assembly. ALBANY, March 26.-The special order in the Assembly this morning cers had the same training as army officers and the same training as army officers morning for the improvement of tenement and lodging-houses in New York city.

Of the three bills presented by the Tenement-House Commissions, this one was more objected to by tenement house owners and builders, who declared it was impracticable in many of its features, and would necessitate the erection of a class of tenement-house of so costly a character that working people could not afford to live in them. When the bill was taken up Mr. Hamilton offered a number of amends which were voted down and the bill was ordered to third reading and made a special order for Tuesday, April 2.

mous vote. It will now go to the Senate, and will probably be passed on Friday. The bill provides that trolley cars shall not be operated at a speed greater than eight miles an hour, or more than six miles an hour, or more than six miles an hour within a radius of two miles from the City Hall in cities having more than 500,000 population.

The Mayor and Common Council of such cities are authorized to compel trolley companies to adopt devices in the form of governors, which will afford evidence if greater speed shall be obtained.

No company, however, is to be rethe Governor this morning. He said the

mendation of the Lexon subsections.

The Senator does not consider the Police bill introduced by Mr. Ainsworth last night worthy of consideration.

"Ainsworth's bill is a plagiarism on my bills," said the Senator. "I understand Ainsworth claims the Governor will sign his bill, but I have assurances he will not do so."

# DETRIMENT TO THE FORCE.

Chairman Rives Condemns the Ains worth Police Bills.

George L. Rives, Chairman of of Ten, said this morning that the Ainsworth police bill would, if passed, tend to create an inefficient po lice force, and that this is the purpose

"The Republican members of the Legislature from country districts believe." he said, "the police force has cheated them out of party victories in the past, and to prevent this in the future they want an inefficient police force in New York City.

"Although I have not read the Ainsworth bill in full, I judge from the newspaper extracts of it that the author has simply been juggling with the present unsatisfactory laws, and he has evolved nothing better. "A four-headed police commission or a

ommission of any size of even numbers, simply opens the way for deals. Such a commission must be either in-efficient or corrupt.

"The plan of court-martial trials would be satisfactory if high police offi-cers had the same training as army offi-cers who had graduated at West Point.

"As our police officers rise from the

branch Station W, of the Brooklyn Post-office, crawled into one of the mail bags at the station a few days ago, and was sent over with a lot of newspapers to the general Post-Office in New York. There the mason's walls attracted the attention of the cierks. "Wike" was set free, and, after a formal convespondence between New York and Brooklyn perial officials, was sent back to her home in Station W.
